Patrick Heide Contemporary Art

The fundamental aim of Kinetica Art Fair is to bring together galleries, art organisations and curatorial groups from around the world who focus on universal concepts and evolutionary processes through the convergence of kinetic, electronic, robotic, sound, light, time-based and multi-disciplinary new media art, science and technology.

The fair provides an international platform for museums, collectors, curators and the public to view and buy artworks in this thriving and advancing field. Alongside the fair there will be special events, screenings, tours, talks, workshops and performances.
